

CASE STUDY - BUILDING MATERIALS & ENGINEERING

Large building products delivered to a restricted site

Large building products delivered to a site with restricted vehicle access and specific unloading requirements.

AT A GLANCE

Sector

Building materials & engineering

Service

Specialist road transport

Route

Leeds -> Greater Manchester

Load type

Large building products

Requirement

Restricted access with offload capability

Planned from

Stockport, Greater Manchester

THE REQUIREMENT

A commercial customer required large building products delivered to a site with restricted vehicle access and specific unloading requirements.

Delivery had to be scheduled rather than left open, so the site could have people and space available on arrival.

THE CHALLENGE

Large and heavy goods narrow the choice of vehicle quickly, and restricted access can rule out the trailer that would otherwise suit the load.

HOW WE MANAGED IT

Johnson's Haulage assessed the transport requirement and sourced appropriate vehicle capacity through the approved carrier network.

Where relevant, specialist options such as flatbed or Hiab-equipped vehicles can be arranged according to the specific movement.

THE OUTCOME

The transport requirement was matched to an appropriate vehicle and coordinated around the site restrictions.

FREQUENTLY ASKED QUESTIONS

Do you offer same-day haulage across the UK?

Yes. Our dedicated same-day service typically arranges collection within 60 minutes of booking anywhere in mainland UK, with a straight run to the delivery point and progress updates along the way.

What size vehicles can you arrange?

Through our approved carrier network we can source everything from small vans and Luton tail-lifts to 7.5t, 18t and 26t rigids, 44-tonne articulated units, flatbeds and crane-mounted vehicles.

What is dedicated transport?

Dedicated transport is a vehicle sourced through our carrier network and committed exclusively to your freight for the duration of the job - it does not carry other customers' loads or make unrelated stops.

Can you deliver into sites with restricted access?

Yes. We ask about gate width, headroom, ground conditions and available site plant before confirming a vehicle. Where an articulated trailer cannot physically reach the unloading point, we arrange rigid vehicles, moffett-equipped trailers or crane-mounted units through the approved carrier network.

ABOUT THIS CASE STUDY

Representative scenario based on the types of transport requirements managed by Johnson's Haulage. Customer details and scenarios are anonymised.

Johnson's Haulage is a transport and logistics management company. Every movement is planned in-house and delivered by a vetted carrier from our approved network.
