

CASE STUDY - AUTOMOTIVE

Urgent automotive components delivered same day

An automotive supplier needed urgently required components delivered directly to a manufacturing site with minimal handling.

AT A GLANCE

Sector

Automotive

Service

Same day transport

Route

Birmingham -> Sunderland

Load type

Automotive components

Requirement

Direct same-day delivery

Planned from

Stockport, Greater Manchester

THE REQUIREMENT

An automotive supplier required urgently needed components delivered directly to a manufacturing site.

The requirement was production-sensitive, so collection had to be arranged immediately rather than scheduled for a later run.

THE CHALLENGE

Routing time-sensitive components through a general network adds handling points and hours that a production line cannot absorb.

HOW WE MANAGED IT

Johnson's Haulage sourced suitable dedicated vehicle capacity and arranged a direct collection-to-delivery movement.

The vehicle was sized to the consignment so the goods travelled with no transhipment between collection and delivery.

THE OUTCOME

The shipment travelled directly to the destination without being routed through a general pallet network.

FREQUENTLY ASKED QUESTIONS

How quickly can you collect for a same-day delivery?

We aim to have a vehicle on site within around 60 minutes of confirming the booking, depending on location, vehicle type and time of day.

Is same-day delivery available outside office hours?

Yes, out-of-hours same-day cover can be arranged for genuine urgent requirements - contact us to confirm availability for your location.

What is dedicated transport?

Dedicated transport is a vehicle sourced through our carrier network and committed exclusively to your freight for the duration of the job - it does not carry other customers' loads or make unrelated stops.

Can you arrange same-day movements for line-stop situations?

Yes. Dedicated same-day vehicles can usually be sourced the same morning, and for longer distances we will compare a dedicated van against a same-day air option on cost and arrival time.

ABOUT THIS CASE STUDY

Representative scenario based on the types of transport requirements managed by Johnson's Haulage. Customer details and scenarios are anonymised.

Johnson's Haulage is a transport and logistics management company. Every movement is planned in-house and delivered by a vetted carrier from our approved network.
